Risks and Benefits of Treatment

Mental Health treatment can have many benefits, but also some risks. Kairos staff work diligently with youth and families to develop and utilize skills using the agency's treatment philosophy of Collaborative Problem Solving.Through the course of individual, group, family therapy, and/or skills training and peer support the discussion of unpleasant topics such as previous trauma may result in uncomfortable feelings such as sadness, guilt, anger, frustration, loneliness, and helplessness. However, treatment has been shown to have many benefits for those who go through it. Treatment often leads to better relationships, solutions to specific problems, and significant reductions in feelings of distress. There are no guarantees of what you will experience.

Additionally, please know that we do not keep secrets. During the course of family therapy your Individual and Family Therapist may disclose information obtained during the course of individual work when working with other members of the family. Please ask to speak with your therapist or the program manager should you have any questions or concerns about the risks and benefits of treatment.

Youth Age 14 and Over

If you are a minor 14 years of age or older, you have the right to consent for outpatient mental health treatment without the knowledge or consent of a parent or guardian. However, unless you are emancipated or the involvement of your parent/guardian is believed to be clinically harmful to you, attempts will be made to involve your parent/guardian prior to the end of treatment. Additionally, we may disclose information to your parent/guardian or primary caregiver at any point if you disclose a plan to cause serious harm or death to yourself, you plan to cause seriousharm or death to someone else who can be identified, or you tell me you are being abused-physically, sexually or emotionally-or that you have been abused in the past and disclosure is deemed clinically necessary to maintain your safety or the safety of others.
